

## Want to Make a Difference in the Life of a Child?

Come be a McKinley Elementary Tutor.

All it takes is one hour a week.

In just one hour a week, you can help a child learn to read, learn about the world, and most importantly, learn that they are important enough for someone to take an interest in their well-being.

McKinley Elementary School, located on the corner of Felton and Redwood Streets in North Park, is excited to provide an opportunity for our neighbors, friends, and/or relatives to come in and help our kids. We provide the training, the support, the materials, and most importantly the kids who are willing and anxious to learn.

Last year, kids who participated had this to say about the program:

“I passed a spelling test for the first time.”

“I now know how to organize my homework folder.”

“It made me feel special.”

Their tutors loved the experience of helping kids in their community. It only takes an hour a week to give a child the gift of a lifetime----the confidence and ability to learn!!!

Training will be held on January 10<sup>th</sup> from 1:00 to 2:00 p.m. at McKinley (3045 Felton Street).
